Robert's Kipferis

This recipe for almond biscuits is from my mother. Although Sephardi born in Istanbul she was raised in Munich, and this recipe is German in origin

Ingredients

115 g/4 oz/1 cup ground almonds
200 gm/7 oz/2 sticks butter
227 g/8 oz/2 cups flour
86 g/3 oz/¼ cup vanilla sugar or caster sugar

Robert Holton

Method

Put everything into a processor and whizz until they form a single mass. Roll out the mass until you get a 1 ½ inch/4 cm thick layer capable of being cut into biscuits. Bake the biscuits at 180°C/350°F/gas 4 for 10 - 15 minutes.

The above quantities are approximate - what you need to achieve is the layer capable of being cut into biscuits.
